2. We work with you to create special offer voucher promotions that incentivise customers to come to your business. Everyone loves a bargain, but what customers really love is money off, BOGOF's and discounts. We put your voucher offers on our website, where 5000 people per month – and growing - visit to find the best deals in town.

The vouchers can be printed off or sent to the customer's mobile phone as a text message – text BYR1 to 64343 to see how it works (only costs your standard network charge). We have also just introduced (June 2010) a new printed voucher book that goes to 10,000 homes, businesses and community organisations in the town.
